# TACK-30™

## PLANTAGO BASED MULCH TACKIFIER

*Meets Arizona DOT Specifications for Tacking Agent 805-2.06*

### PRODUCT DESCRIPTION

**TACK-30™** is a tackifier manufactured from psyllium or plantago husk powder. Plantago husk powder contains a naturally evolved mucilloid that is an effective adhesive when applied as a slurry with fiber or paper mulch or as an overspray to bond straw fiber. Every manufactured lot of **TACK-30™** is tested by Rantec Corporation to meet a minimum **swell of 30**, guaranteeing a consistent quality plantago product.

### APPLICATION GUIDELINES

The following are general guidelines only. Consult your distributor for specific site related recommendations.

### GENERAL USAGE RATES PER ACRE

	<i>Straw Over Spray</i>	<i>Fiber Mulch</i>
Mulch, lb/acre	200	2000
<b>TACK-30™</b> , lb/acre	100	75
Water, gal/acre	700-1500	3000-4000

### MIXING INSTRUCTIONS

Fill the tank so the lower agitator blades are covered with water. Add the required amount of **TACK-30™** while operating the agitator at high speed. Add water while adding mulch, fertilizer, and seed.

### SPECIFICATIONS

Tack 30 has a minimum swell volume of 30 ml/gram.

### PACKAGING

**TACK-30™** is packaged in 50 lb polywoven/polylined bags, 40 bags per pallet with stretch-wrapped cover and pallet liner.
