RX2000 Starch

For Drilling and Agglomeration

DESCRIPTION

RX Drilling Starch is a cold water soluble, modified starch meeting the API-13B Drilling Starch Specification for water loss and viscosity.

RX2000 starch is a cold water soluble starch utilized as a binder and agglomeration aid.

Both products are 200 mesh powders with easy mixing in water.

Packaging

25-kg Multiwall kraft bags, packed on 40 x 48 pallets, wrapped or bulk bags from 1500 to 2500-lb.

Storage and Shelf Life

RX starch should be stored in cool, dry conditions protected from rodents. Shelf life is a minimum of three months when stored under 90°F and 70% relative humidity.
